

A technology **Platform** that delivers proficient performance evaluations, **as a Service (PaaS)**

ABOUT

The Appraisal Instrument is a product that facilitates a company being able to evaluate board and sub-committee performance by use of a cloud based technology platform. The “easy to apply” process achieves the desired intelligence as sought by the Board to make improvements to its own performance.

THE VALUE PROPOSITION LIES IN:

- | | |
|---|--|
| <ol style="list-style-type: none"> 1. Credibility of appraisal: 2. Proficient Reporting: 3. Quantum discretion: 4. No unnecessary complexity: 5. Latest Information Technology: | <p>The user has access to a knowledge base of categorized questions</p> <p>Reports are immediately available at response completion</p> <p>The user decides on the frequency of appraisals to be done, and how extensive they need to be</p> <p>No additional resources required. No hidden costs of implementation to get results.</p> <p>SQL Database & DNN application in the cloud</p> |
